# INTRODUCTORY.

**I**N PRESENTING the sixth annual volume of the Des Moines City Directory to our subscribers and patrons, it is almost needless to say that the same labor and effort to secure accuracy and reliability which the publishers have always put forth have not been withheld in the preparation of the present edition. The ambition of the publishers is to give the latest and most accurate information, thereby making it an invaluable work of reference and a necessary adjunct to every well regulated business house and office in the city; and with this end in view we have spared nothing that labor or money (together with many years of experience in this line of work) could do to render it as complete and accurate a publication as it is possible for human skill to produce. We know by the patronage extended to us by our business men that our efforts are duly appreciated, but it is impossible for one unaccustomed to this line of business to realize the amount of constant labor and unceasing care it requires to attain the degree of accuracy contained in this volume.

## POPULATION.

Great interest is manifested every year in the estimate we make of the population of Des Moines. The opinion seems to have prevailed that there would be a slight decrease; but such is not the case. Our alphabetical list this year has 27,180 names, 522 more than last edition. Multiplying as we have done heretofore by  $2\frac{1}{2}$  to include women and children we make our population 67,950, a gain over last year of 1,490. Of this increase we may justly feel proud as the times have not been conducive to the growth of cities and many cities found themselves poorer in point of numbers than they did one year ago.

Yours truly,

R. L. POLK & CO.

## STREET AND AVENUE GUIDE.

### EXPLANATION.

IN ARRANGING the "Street and Avenue Guide," for the City of Des Moines the following plan has been adopted (and approved by the City Engineer): All streets on the west side of the Des Moines river have been designated by the same name or number alone, abolishing the prefix of west except in the case of numbered streets south of Vine; for example: Walnut, Vine, Grand av., Locust. In the case of the numbered streets, all north of Vine are designated as 1st, 2d, 3d, 4th, etc., and south of Vine, w so 1st, w so 2d, w so 3d, etc. Streets east of the Des Moines river which run through to the west side of and beyond the river are designated as e Vine, e Court av, e walnut, e Locust, etc.; the numbered streets north of Vine as e 1st, e 2d, e 3d, e 4th, etc., and south of Vine as e so 1st, e so 2d, e so 3d, etc. Streets on either side of the Des Moines river which do not run through from west to east Des Moines, are designated by their names without any prefix; for example: Maple, Buchanan, School, University, etc. If located south of the Coon river, the name of the street is followed by (S D M); if north of the Des Moines river (Highland Park).

The following abbreviations are used: Av for avenue, al for alley, bet for between, Boul for boulevard, D M for Des Moines, n for north, rd for road, s for south, w for west, e for east, nw for northwest, sw for southwest, junct for junction, opp for opposite, dr for drive.
